Airport master record files (GRS-956) (DISCONTINUED)

Utah General Retention Schedule

Description
The forms (5010.1) are created by the Federal Aviation Administration (FAA) to document
basic information about airports and are updated as state officials inspect the airports.
The records contain information on individual airports, including owner's name and
address, manager's name and address, whether the airport is public or private, latitude
and longitude, runway date, lighting, landing length, services, facilities, based
aircraft, and operations. Also included is an Airport Layout Plan (ALP) of the airport.

Retention and Disposition
Retain until superseded, and then destroy records.
