

Elevation records (GRS-2599)

Utah General Retention Schedule

Description

These are geospatial records pertaining to the elevation of Utah. Digital Elevation Models (DEMs), contours, slope, and aspect are included. Digital representations of contour information known as hypsography represent lines of vertical elevation values above or below a datum surface. Light Detection and Ranging (LIDAR) data is also included.

Retention and Disposition

Retain permanently. Transfer records to the archives.
