**TITLE:** Cost and rate structure reports

**DATES:** 2001-

**ARRANGEMENT:** Chronological by fiscal year

**DESCRIPTION:**

The Division of Forestry, Fire and State Lands operates the Lone Peak Conservation Center (LPCC) in Draper. LPCC grows and sells tree, shrub and wetland plant materials, and provides work crews for fire suppression, hazardous fuels reduction and other conservation projects. LPCC recovers costs through the sale of plant materials and crew services. Included in this series are computer data on: staff and benefit calculations; vehicle build up and mileage rates; seedling production rates and sales charts; and small equipment use rates. These data are used to formulate rate structures for nursery seedlings, work crew services and fire crew services.

**TITLE:** Fire billings project files

**DATES:** 1980-

**ARRANGEMENT:** Chronological

**ANNUAL ACCUMULATION:** 0.50 cubic feet.

**DESCRIPTION:**

This series provides a record of billings for services provided by the Flame-N-Go Firefighters. This program was created by the Department of Natural Resources in cooperation with the Utah State Prison and established Utah's first volunteer, inmate wildland fire handcrew. The crew is trained to respond to fires anywhere in the United States upon request. Information includes the billing sent to the requester outlining the number of crew, hours spent on the project and the total cost. In addition, the file includes the time sheets for the crew and the amount reimbursed to the Prison for the labor cost for the inmates.

**TITLE:** Irrigation water rights records

**DATES:** 2001-

**ARRANGEMENT:** Alphabetical by name of parcel.

**ANNUAL ACCUMULATION:** 0.10 cubic feet.

**DESCRIPTION:**

The Division of Forestry, Fire, and State Lands operates the Lone Peak Conservation Center (LPCC) in Draper. The LPCC includes a tree and shrub seedling nursery. High quality irrigation water is necessary to grow the seedlings. The current source of irrigation water is Little Willow Canyon, approximately seven miles from LPCC, and water is piped to LPCC from the mouth of Little Willow Canyon. This series includes copies of the deed of water right, recorded easements, maps of the water line location, plat maps, correspondence from developers and homeowners relating to the water line, global positioning system coordinates of the water line, pictures of the point of diversion, water quality analyses, detailed drawings, water line specifications, and surveys of the water line. Some of the documents are original, but others are duplicates of documents in the county recorder's office, Draper and Sandy city records, and the Division of Water Rights records. This series contains basically everything the division knows about the water right and the water line location. Inasmuch as the division inherited the water line from the prison, the exact line location is not known. These records have been collected in an attempt to determine the water line location and to deal with property issues relating to it.

**TITLE:** Plant germination protocol records

**DATES:** 1990-

**ARRANGEMENT:** Alphabetical by species name

**DESCRIPTION:**

The Division of Forestry, Fire and State Lands operates the Lone Peak Conservation Center (LPCC) in Draper. LPCC grows a variety of trees, shrubs, grass and wetland plants for conservation purposes and makes the plants available to customers. Successful germination of seed at production levels is critical to nursery operations. To successfully germinate seed LPCC follows published protocol for commercially propagated plant species. Where existing literature is insufficient, LPCC develops its own germination protocol, which is written up in the form of a technical paper. LPCC has developed stratification schedules and protocol for seed and vegetative propagation of tall forb communities, Wyoming sagebrush, select native grasses, and specific wetland emergents.
