TITLE: Mining records

DATES: 1883-1896.

ARRANGEMENT: Chronological

DESCRIPTION:

Mining records, which constitute a legal record, are kept for the purpose of monitoring and registering mining claims and operations. Mining records contain notices of location which provide the name of the claim, locators, location, legal description and the mining district; proof of labor registers which record the work performed at each mine annually by each worker; district by-laws; meeting minutes, and district officer election results. The Henry Mining District Recorder recorded mining operations in Sevier County, Utah. Until the law changed in 1897, mining districts in Utah had the option of electing their own mining district recorder. Many of the large mining districts, including the Henry Mining District, chose to elect their own recorders while claims and other records within smaller mining districts or in unorganized areas were filed with the county recorder. The district recorder was created in 1883 and ended in 1897 when the law changed and the county recorder assumed sole responsibility for mining records (Laws of Utah, 1897, Chapter 36).

RETENTION AND DISPOSITION AUTHORIZATION:

These records are in Archives' permanent custody.

FORMAT MANAGEMENT:

Paper: Retain in Office until microfilmed and then transfer to Sevier County Recorder.

Microfilm master: Retain in State Archives permanently with authority to weed.

Microfilm duplicate: Retain in State Archives permanently with authority to weed.

APPRAISAL:

These records have administrative, historical, and/or legal value(s). Because of the importance of mining information, which documents the monitoring and registering of mining operations, the District Recorder was required by law to maintain mining records and their corresponding indexes.
